

This is such an easy card to make and looks fabulous – it uses a Test Tube in the spine of the card that you can fill with candies, drink mixes or even a themed lip balm which is what I have done here...

NEED TEST TUBES? I have both Tall and Small Tubes available in my store which you can find at www.sarahsinkspot.com – if you have any questions please email me at sarah@sarahsinkspot.com and I will be very happy to help.

WHERE CAN YOU FIND THOSE SEASONAL THEMED LIP BALMS? I got mine from Avon.com – they often have them in the clearance section too and are fabulous value for money and just perfect for projects like this one.

This card uses the Small Tube but you could also size a card slightly larger to use the Tall Tube. How do you make this cute card? It's a piece of cake...

You can find my template with sizes and lines showing you where to cut and score at the very end of this tutorial.

Cut a piece of cardstock to 4" x 8 3/4"...place in your trimmer with your score blade installed or place in your score tool- the longest edge should be along the top...

Score at 4" and again at 4 3/4"...

At the second score line from the left side, measure 1 1/4" from the top and mark a small pencil mark on that score line – then on the same score line measure 1 1/4" from the bottom and mark.

Then take a ruler and measure out 1 1/2" from the top mark on your score line towards the left and mark your line with a pencil – repeat for the second mark lower down – this is what your lines will look like...

Next you need to score between these lines downwards to create a third score line – but a small one, just between your two pencil lines. Fold along your two big score lines.

Now you need to make the little bit that will hold your Test Tube – fold along the first score line...

And using sharp scissors snip down the two lines that you drew right to the small score line...

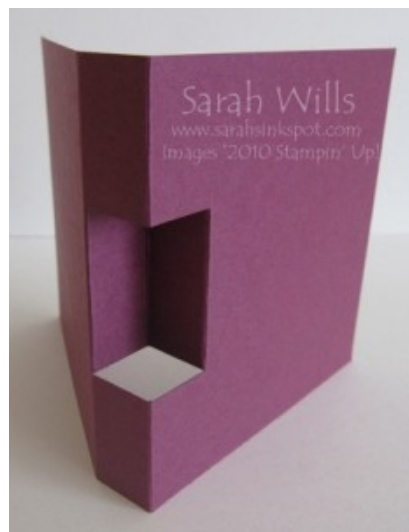

Open up your card and gently push through onto the little score line to force that little band into the center of your card – push down to make a crisp fold...

And this is how your card will look on the inside...

And on the outside...

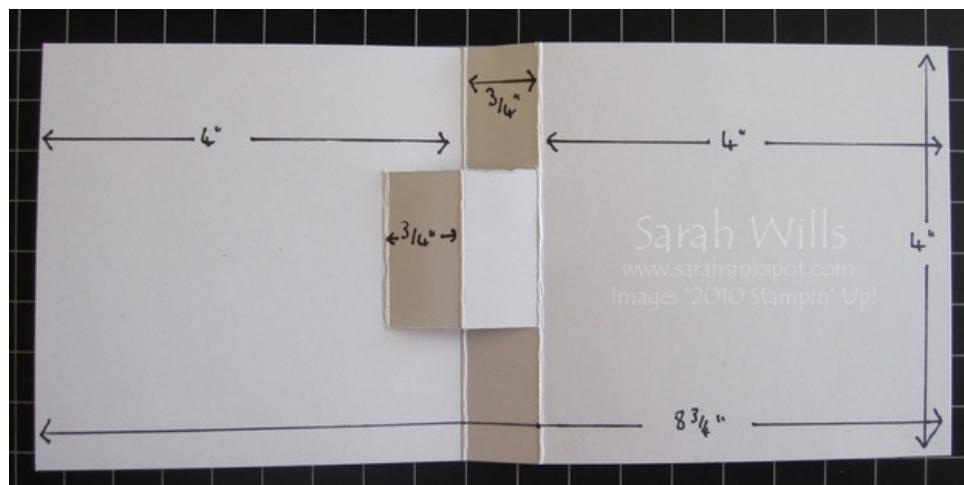

And now it just awaits it's Test Tube filled with whatever goodies you desire...

This is my finished card inside...

And here is my template, for your reference...
