Instructions:

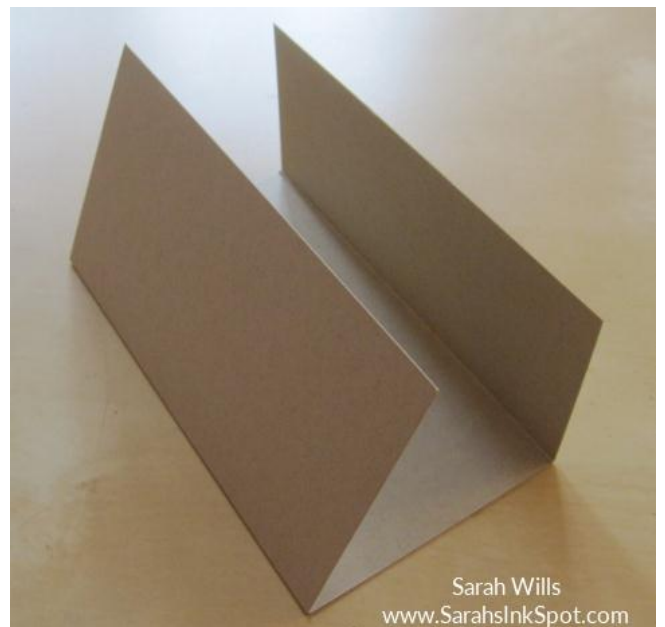

1 – Cut a piece of cardstock to measure 5 ½" x 8 ½"

2 – Place the longest edge along the top of your scoring tool and score down at 3" and 6 1/8"

3 - Fold along the score lines...

4 – Take a Whisper White Medium Envelope, seal it and score half way at 2 7/8”

5 – Cut 3/8” off each end of the sealed envelope to create an opening at each end...

6 – Fold in half and apply a line of tape to one of the inner surfaces...

7 – And push together to adhere in place...

8 – Use tape to adhere in place to the cardstock – make sure that the folded edge is aligned with the bottom score line on the center panel – the smaller flap of that cardstock should be at the top, the larger at the bottom

9 – And this is what you will have. You can either stop here and leave it as is with the front of the envelope showing to decorate or you can adhere it to the front panel to create more of a concertina file. To do this...

10 – Simply apply tape to the front of the envelope and push the front panel in place...

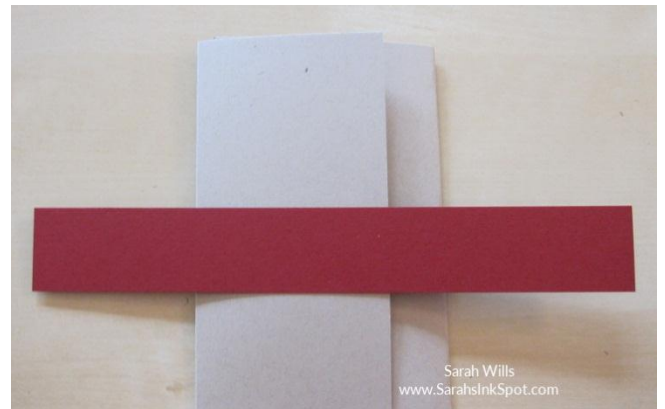

11 – To make the pull-out pieces, cut two pieces of cardstock to measure 4" x 2 1/2"

To add the tabs, use the Round Tab Punch to cut the shapes and adhere in place. Add layers as desired.

To add a gift card to one of them, simply use a Mini Glue Dot to hold it in place – it pops right off easily when it's time to use it!

12 – To make the belly band, cut a piece of cardstock to measure 7 1/4" x 1"

13 – To get the perfect fit, hold the wallet and wrap around the belly band and push on the folds – take off and score along those fold lines.

If you have a flat front panel with only stamped decoration, you can adhere the belly band ends together using tape or glue dots.

But if you have raised embellishments like my snowflakes, it will not easily slide off without catching on something – to secure the ends in place use Velcro dots so that the band can be peeled apart at the back...

Here is how I decorated mine – all supplies I used are detailed in the Supply List above:
