

This tutorial shows you how to turn your Witches Boot into a cute Card...

To make this Card you will need to have already made a Witches Boot – visit my blog at [www.sarahsinkspot.com](http://www.sarahsinkspot.com) to find my free tutorial showing you how to make them!

Take a piece of Basic Black cardstock and cut it to be 5 1/2" x 11"...

Score it half way at 5 1/2"...

And fold in half...

Set up your Big Shot & put in your bottom plate.

Take your Holiday Stocking Die and place your folded Black card onto it - you want to take the top folded edge of that card, line it up & position it JUST BELOW the edge of the top of the stocking die shape...

Here is mine - make sure that your folded edge is below that line - this will ensure that your folded top edge remains intact.

Add your top plate and run it through your Big Shot - and this is what you will have...

See that your fold is intact at the top and you now have a cute stocking shaped card...

Take the Witches Boot that you have already made and turn it over so that the reverse side is face up...

Position your stocking card onto that reverse side and holding it in place with your fingers, turn it over so that it is right way up...

Take a pencil and carefully trace around that stocking shape the outline of the heel area and curved top piece...

Remove the Witches Boot and this is similar to what you will have - pencil marks at the top & bottom...

Take some very sharp scissors and whilst holding the two layers together, cut along those lines...

Bring back your Witches Boot and lay it face down - lay your card on top and check the position to make sure you don't need to trim any more away - the goal is not to see the card base from the front.

Once happy, use strong adhesive tape such as Sticky Strip to adhere your card base to your Witches Boot and there you have one very cool Happy Halloween card...
