

This is a super cute & easy to make Punch Art Turkey - he is perfect for your Thanksgiving cards & projects and would be super cute for place setting name cards...

**Supplies needed:**

- 119855 Large Oval Punch
- 119868 1" Circle Punch
- 119860 1 3/8" Circle Punch
- Cardstocks & Patterned Papers in fall colors

**To make your Turkey:**

Punch out the following shapes:

- 1 x 1 3/8" Circle
- 1 x 1" Circle
- 9 x Ovals
- Cut 1 small triangle for the beak

For my Turkey, I used Early Espresso for his body & two of the feathers, Tangerine Tango for his beak and the orange & yellow patterned papers are from [Sweater Weather DSP](#) (pg 18 Holiday Catalog)...

Place your first feather onto your background - I am using Very Vanilla cardstock for my background - and I find that Mini Glue Dots are the easiest way to adhere the features to it - you just need one small glue dot at the top of the feather and it holds nicely...

Then adhere two more feathers as shown...

And then the next two - this now completes the back row...

Now for the front row - add two different colored/patterned feathers...

And then the last two...

Next add your body to the center - I used a Dimensional to put his head on to make it look a little more 3D...

And then add his beak...

And there he is - easy and fun!
