Instructions:

1. Adhere Silver Foil layer to black base & then the black mat in the center of that silver layer
2. Pile Metallic Sequins on to the black mat – use a Glue Pen or Mini Glue Dots to adhere some in place so that they don't all move & shake around – some will be permanently fixed for a nice look to your card
3. Use a Square Die to cut window shape and use paper trimmer to cut frame to size – cut to size & adhere a piece of Window Sheet to the reverse side of the frame using Mini Glue Dots
4. Place Foam Adhesive Strips on the reverse side of the frame – and adhere in place over that black mat
5. To make the banner tag, cut a piece of white cardstock and shape one end using the Banner Triple Punch – then stamp 'Congrats Grad' using a stamp from BYOP and adhere in place using Dimensionals
6. Punch a balloon out of Gold Foil using the Balloon Bouquet Punch and use a Dimensional to adhere it to the window sheet
