Stampin' Up! Supplies Used:

- Dies: Large Letters Framelits (141712), Everyday Jars Framelits (141490)
- Cardstock: Early Espresso (119686), Crumb Cake (120953), Whisper White (100730)
- Tools: Big Shot (143263), Simply Scored (122334), Paper Snips (103579)
- Punches: Ticket Tear Border (143718), Cookie Cutter Builder (140396), Tree Builder (138295), Fox Builder (141470)
- Ribbon & Twine: Crumb Cake Classic Weave (144162), White Solid Bakers Twine (124262)
- Adhesives: Mini Glue Dots (103683), Tear & Tape (138995), Dimensionals (104430), Fine Tip Glue Pen (138995)
- Misc: 3x6 Gusseted Bags (141704), 6x17 Gusseted Bags (142001), Basic Pearl Jewels (144219), Graham Crackers, Chocolate Bars, Marshmallows

INSTRUCTIONS:

1 – Fill a 6 x 17 Gusseted Cellophane Bag with graham crackers, chocolate bars & marshmallows – I popped the marshmallows into 3 x 6 Gusseted bags to keep them from making everything sticky – tie with bakers twine to close and cut off excess cello at the top of the large bag.

2 – Use the Large Letters Framelits dies to cut lettering from Early Espresso cardstock

3 – To make the Marshallow Man: use the smallest jar die from Everyday Jars Framelits to cut two shapes for your marshmallow man – use the larger die to cut off the band section on one of them

4 – Use the Tree Builder Punch to cut two branch shapes from Early Espresso cardstock and use Paper Snips to cut off the extra pieces

5 – Use the Fox Builder Punch to punch this shape for the mouth – use Paper Snips to shape it using the bottom curve as your guide

6 – Use the Cookie Cutter Builder Punch to make shapes for his eyes – alternatively you can use small circle punches for this – use the Fine Tip Glue Pen to add to the top marshmallow along with a Pearl Jewel for his nose

7 – Assemble his head to his body part using Dimensionals

8 - Add the twig arms and a small heart if desired to his chest

9 – To make the bag – place a piece of 8 ½ x 11 Crumb Cake cardstock into the Simply Scored with one of the longest edges along the top and score down at ¾"

10 – Turn your cardstock around and score down at ¾", 1 ½", 7" and 7 ¾"

11 – Repeat so that you have two pieces – shape the top edges on both with the Ticket Tear Border Punch (the top edge has no score line running along it)

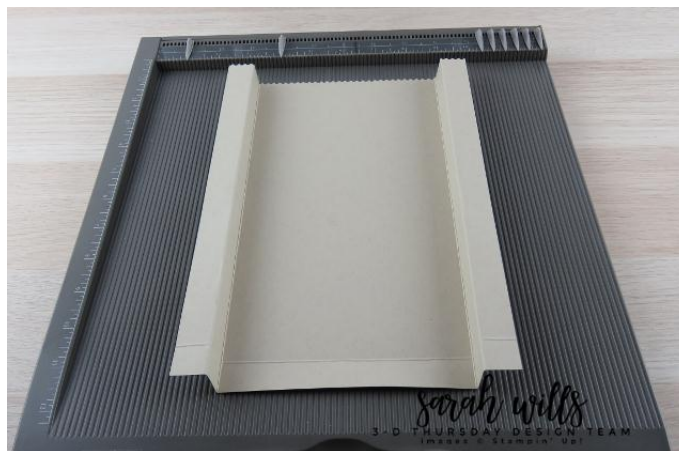

12 – And this is what you will have

13 – Fold along the bottom score line

14 – Fold along the side score lines as shown below

15 – Repeat for both pieces of cardstock – on one of them, cut the corners out at the bottom

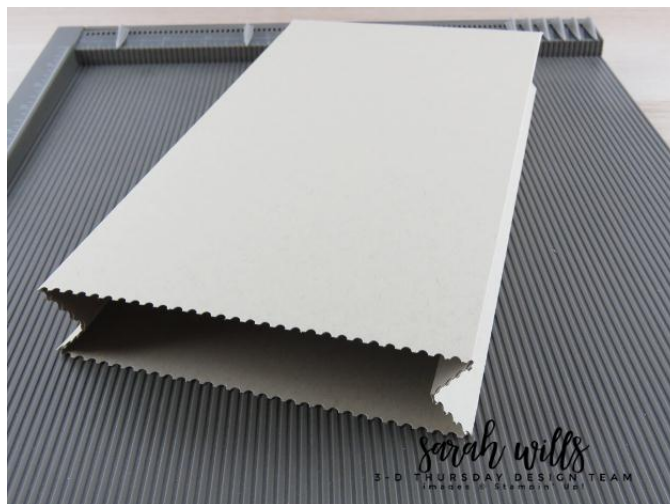

16 – And on the other piece, cut the whole bottom strip off along that score line that is ¾" in from the bottom edge

17 – Take one of the pieces and add Tear & Tape Adhesive to the length of one of the side flaps – adhere in place and then stick down the other part of that flap on the same side

18 – Repeat on the other long side and this is what you will have

19 – Add Tear & Tape Adhesive to the inside of the bottom flap and fold up and over the outer edge of the upper piece to close the bottom of your bag

20 – And this is what you will have – your bag is now ready for decorating!

This is how I decorated my bag – all items that I used are listed in the supply list at the top of this Project Sheet:

Here is what is inside…a cello bag containing supplies to make s'mores!

And a side view…

And that cute Marshmallow man…

If you have any questions at all about this tutorial please email me at sarah@sarahsinkspot.com and I will be very happy to answer them for you.
