

TAG BUFFET TAG KIT

In your Kit you have all the bits & pieces to assemble SIX beautiful tags as shown above.

On the following pages you can see each one individually - they are super easy to assemble - just get yourself some Dimensionals:

- and layer the details for each on a white printed tag
- when you have added the decorations to the white tag, find the bottom green or red patterned tag and layer it on to
- take a piece of gold thread and knot it through the holes on both top & bottom tags and your tag is done!
- Your tags are designed to hang loose from each other but if you prefer you can use some tape to secure those tag layers together.
- The ink colors used on the banners are Real Red, Garden Green and Shaded Spruce...
