Cut a piece of cardstock to measure 3 1/2" x 4" – this will be the back section

Cut two pieces to measure 2 1/4" x 5 1/2" – these are the box pieces

Place one of the box pieces into your scoring tool and score at 1/2" and 4"

And repeat for the other

Fold along the score lines and use your bone folder to make those folds nice and crisp

If desired, trim the tops of the corners of the small strips on an angle and apply strong adhesive tape to them

Line up your box pieces as shown below – the 1/2" tab to the small panel of the other piece and adhere in place

To make your insert dividers – use curved landscape dies to cut two or three pieces – the top two die cuts below are from Home Together Dies and the bottom dotted one is from Curvy Dies

Take your first insert and place on your box – use your fingers to wrap each end around your box – this will give you fold lines and create your tabs

Use your bone folder to make these nice and crisp – the tab on the left should fold backwards and the one on the right forwards – this will allow your card to fold and fit in an envelope

Next trim down each tab – make a cut about 1/4" down from the top edge and angle out – this will allow you're the curvy part to stand up and out of the box

Apply strong adhesive tape to the tabs and position inside your box

Fold over to the right side to make sure your card will lay nice and flat – if it does not, gently peel off the tab on the right and push your card flat – this will allow your tab to find it's fit 😊

Repeat for your second insert, again making sure your box card will lay nice and flat and adjusting this insert where necessary

You can add a third insert if you wish to – I decided to stick with two and this is how it looks from above

Apply tape to the bottom part of your back section and slide into the back of your box and adhere in place

And as you can see, your box card will fold flat and fit into a standard A2 Medium sized envelope 😊

This is how I decorated – all items that I used are listed in the supply list at the top of this Project Sheet:

warm & toasty
wishes to you
