The base - take a piece of cardstock and cut it to measure 4 1/2" square and score 1" in on all sides

Make 4 cuts to the intersecting lines as shown below, to create flaps

Fold along all score lines

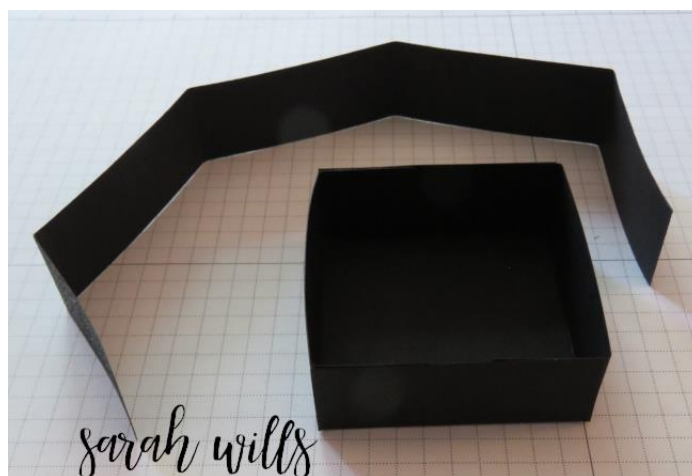

Turn over and apply strong adhesive tape to the reverse side of the flaps

Fold each flap in to adhere to it's adjoining panel and push firmly to secure

To decorate, cut a strip of patterned or glittered paper 1" wide – wrap around the box and push on the corners to create a mark where the fold will be – go over each fold line with your bone folder and when ready, adhere to the box base using strong adhesive tape

The sides – take a Tombstone Box piece and turn over – gently peel away the backing piece to leave behind the tomb shaped top section – repeat for 3 other pieces.

For two of them, cut off the side pieces that stick out at the bottom and for the other two pieces cut off the top curved section

Use strong adhesive tape to adhere the top piece to the bottom piece

Cut two strips of Basic Gray cardstock to measure 2" x 7 1/2" and adhere to the back of the Tombstone Box pieces to cover up where the adhesive marks are

Make two small holes in the top of each to tie your ribbon through and use strong adhesive tape at the base of each to adhere to the inside of your box base – and now you are ready to fill & decorate!

This is how I decorated – all items that I used are listed in the supply list at the top of this Project Sheet:
