Take a piece of 12x12 sized cardstock – cut at 5" – keep the 12" x 5" piece and put the other to the side

Put into your scoring tool with a long side along the top edge – score at 5 3/4" and 6 1/4"

Turn so that the short edge is along the top edge and score at 1/2" and 4 1/2"

At the center of your piece of cardstock you will see intersecting lines – cut from the outer edge up to the 1/2" score line for each of the four lines to create two tabs

Fold along all score lines, using a bone folder to get them nice and crisp

Apply two lengths of strong adhesive tape to the two long tabs on the right

Carefully fold the two small tabs in and then the larger tabs to create your box

And now it is ready for decorating and filling! A small share sized packet of M&Ms fits in there nicely or you can pop in the treats of your choice...

This is how I decorated mine – all items that I used are listed in the supply list at the top of this Project Sheet:
