- Inks: Gray Granite (147118), Memento Black (132708) and Basic Black Stampin Blends (154843)
- Cardstock: Gray Granite (146983) and Cajun Craze (119684)

- Designer Paper:
- Accessories: Iridescent Pearls (158987)
- Tools: Humble Home builder (p-164093 b-164094) and Exposed Brick 3D embossing
- Miscellaneous:

INSTRUCTIONS:
Gray Granite 2 ¾ x 5 ⅜. Scored long across the top at 2 both sides. Scored schort across the top at ⅜ both sides. Gray Granite 1 ⅜ x 8. Scored long across the top at 3 both sides. Punch out two houses and 6 windows from Gray Granite.

Box - First emboss one section of the 1 ⅜ x 8 Gray Granite, from top to a score line. This will be your house front. You can do both ends if you wish.

To cut your 2 ¾ x 5 ⅜ Gray Granite you want to cut the ⅜ scored sections from edge to the score. I wedged out the one side of the score. You will glue/Tear n Tape the bottom to create a U shape. That piece then gets glued/Tear n Tape to the embossed Gray Granite piece. There is your 'box'.
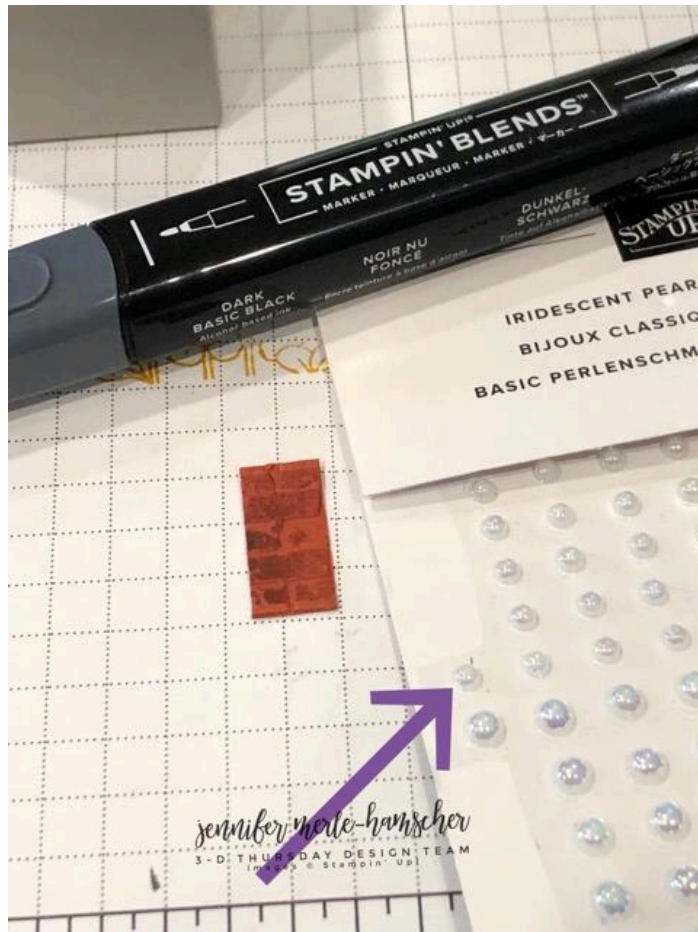

Cajun Craze ⅜ x ¾ for the door. Emboss this piece using a mostly brick part of the embossing folder.
Using the 'brick house' from the Humble Home stamp set to add Gray Granite ink to the door and to the house(s) lower section.
Stamp your 'windows' using Memento. (Attach those using Mini black Dimensionals.)
Using both ink colors smudge up your bricks.

Using the Dark Basic Black Stampin' Blend color a small pearl to use as a door handle.

Arrange all your parts as desired. Use glue to secure your house top to the box. You may want to trim the top corners off the 'box'. (See box building photo) Add ink if desired.

Attach your second house to the back, be sure you put the chimney on the same side.

Add your treats!

Hugs and Have a Great Day getting Crafty!!
